Overview

Level 3 Audio Visual is a premier provider of AV solutions and managed services, delivering cutting-edge technology to organizations across the U.S. and globally. We specialize in designing, integrating, and supporting advanced AV systems that enhance communication, collaboration, and engagement across corporate, education, healthcare, and government sectors. Our expertise spans video conferencing, digital signage, control systems, and unified communications, ensuring seamless integration with existing IT infrastructure. What sets us apart is our AV9000 compliance, guaranteeing the highest standards in AV system design, installation, and commissioning for reliability and performance. With a nationwide reach, industry-certified professionals, and a customer-first approach, we deliver scalable AV solutions tailored to business needs. Whether outfitting a single meeting space or deploying standardized solutions across multiple locations, we provide high-performance AV experiences backed by expert support and ongoing service.

Products & Solutions We offer a full range of AV solutions that enhance communication, collaboration, and engagement across industries: **Video Conferencing & Collaboration** – Seamless, high-quality solutions including Microsoft Teams Rooms, Zoom Rooms, and hybrid meeting spaces for modern workplace communication. **Digital Signage & Displays** – High-impact LED video walls, interactive kiosks, and wayfinding solutions to improve engagement in corporate, retail, and public spaces. **Audio Systems** – Highfidelity solutions including distributed audio, conferencing sound, sound masking, and public address systems for effective communication. **Control & Automation** – Integrated AV, lighting, and environmental control systems for simplified operation in boardrooms, classrooms, and auditoriums. **Unified Communications (UC&C)** – Comprehensive voice, video, messaging, and content-sharing solutions that enhance collaboration. **Command & Control Centers** – Mission-critical AV systems for network operations centers (NOCs), emergency response centers, and security control rooms. **Interactive & Learning Environments** – Interactive displays, training room AV, and e-learning technology for education and corporate training. **Services Beyond technology**, we provide end-to-end services for seamless AV design, deployment, and support.

Design & Engineering Services We offer expert consulting and engineering to develop tailored AV solutions, including: **AV System Engineering** – Custom system architecture, signal flow design, and technology specifications. **AV Design Consulting** – Needs assessments, technology recommendations, and strategic planning. **Standards-Based Documentation** – AV9000-compliant CAD drawings, schematics, and documentation.

Management – Dedicated oversight of timelines, budgets, and logistics for smooth execution. Fabrication & Staging – Pre-build, testing, and system staging for streamlined onsite installation. On-Site Installation – Certified technicians handle installation, cabling, and hardware setup. Testing & Commissioning – AV9000-compliant performance validation for reliability and user experience. Managed Support & Lifecycle Services We ensure long-term system performance and uptime through: Help Desk & Remote Support – Phone, chat, and remote troubleshooting for quick resolution. Break-Fix & On-Site Maintenance – Field service technicians for responsive repairs and proactive maintenance. AV System Monitoring & Analytics – Proactive diagnostics to prevent downtime and optimize performance. User Training & Adoption – On-site and virtual training to maximize technology usage and ROI. At Level 3 Audio Visual, we don't just deliver technology— we provide trusted solutions and expert services that empower organizations to connect, collaborate, and innovate.
