### **Overview**

*As a long established leader in the energy industry, with more than 2,500 customers and 1,100+ staff strong, Open Access Technology International, Inc. (OATI), (www.OATI.com), has been transforming the business of energy for the past 26 years by innovating cutting-edge solutions to keep the grid running smoothly and making it smarter. With the intersection now between energy and transportation, we are also leading the way in transforming and reshaping the Electrification of Transportation (EoT) with our comprehensive EVolution (www.evolutionEVnetwork.com) solution for EV and Fleet charging. EoT creates a winning proposition for the environmentally conscious EV owners, for businesses as EV drivers go where they can charge and charge where they work, for electric utilities by adding new revenue streams and controllable loads, and leaders transforming their fleets for reduced fuel cost and lower cost of ownership goals and serving their communities, and for society to reduce emissions for cleaner air. From EV Charging to grid modernization and microgrids, we embrace new energy solutions. In addition, we continue to be invested in and support our current and legacy customers, ready to help them and anyone else navigate the shifting energy landscape.*
