Overview

The inventor of synthetic turf, AstroTurf® is one of the most iconic brands in American sports — as legendary as the athletes who've battled on it. The brand that created the category is once again the leading innovator in synthetic turf. American-owned and operated, AstroTurf is the only synthetic turf brand with true vertical asset integration, ensuring that every inch of product meets and exceeds the highest standards of performance, quality and durability. With over 40 years of experience and 160,000,000 square feet of turf in use worldwide, AstroTurf brings more technological expertise and real world know-how to the game than any other brand. AstroTurf is backed by Textile Management Associates, Inc. (TMA), one of the leading suppliers to the synthetic turf industry. Textile Management Associates, Inc. is part of a 35-year-old, family owned manufacturing group based in Dalton, Georgia. The company has owned the AstroTurf brand, including all assets and intellectual property, since 2004. Today, AstroTurf products benefit from proprietary innovations in manufacturing, extrusion, installation and recycling that are outpacing industry trends. Guided by the philosophy of "More Fiber, Less Fill™," AstroTurf is producing superior products that perform more like natural grass, and bringing new advances to market faster than the competition.
