Overview

Wood Air Conditioning has been serving the greater east Texas area for over 65 years. We are a full service air conditioning and heating company. We are heavily specialized in both the commercial and residential fields. We can handle any job from small split systems to a large chilled water system. Multiple systems on a short time frame are our specialty. We get in, and get out so you can keep operating. All the while keeping your time and budget top priority.

Setting an industry standard we were one of the first to require our technicians to be background checked and drug screened. We want you to know when one of our techs comes to your facility you are getting the best of the best. Our experienced design and installation staff can develop your next project to meet any specific need or comfort concern you may have.
