Overview

Lightspeed is dedicated to making a remarkable difference for teachers and students by creating Classroom Audio Systems that give access to powerful in-the-moment insights into the learning process. Our Redcat, Topcat, and 955 solutions engage the whole classroom, ensuring every student can clearly hear through low-volume, highly intelligible sound that is evenly distributed through the classroom. Additionally, these systems integrate with all classroom technology and distance learning solutions to ensure all audio in and beyond the classroom is clearly heard by all. Our Activate systems for small group instruction reveal hidden insights to learning that are otherwise missed by students and teachers.
