Overview

<p>JRC Repair Service, LLC dba 3D Modeling of Schools and other facilities for security purposes. Our scans are housed in a Federally compliant Secure Cloud. Our scans can be shared with Law Enforcement and Fire Departments as a tool when responding to incidents involving the facility. 3D models are placed on the Texas DPS Troopers in-car computer system Statewide for response to emergency incidents. A responding officer, which receives the secure link, can "walk through" a facility on his in-car computer or cellular device before arriving on-scene.</p>
