Overview

Harold Beck & Sons manufacture electric actuators for industrial control valves and dampers. Beck rotary and linear drives are designed for continuous modulating or direct AC control and are a recognized leader for reliability and accuracy. Engineered to the high performance standards of today's sophisticated control instrumentation, Beck's electric actuators maximize final control element performance, providing responsive, repeatable actuation. Beck has been manufacturing in the Philadelphia area since 1936, meeting all BABA and Made in America standards.
