Overview

Spacestor are the creators of architectural, space-defining furniture that blends California cool with London design. We have learnt from our long-term engagement with some of the most successful and innovative companies such as Google, Pfizer and JP Morgan, how a sustainable workplace environment drives their organisational goals.

Throughout nearly three decades, we've established ourselves as a key innovator of workspace furniture and design thinking in the UK. Ten years ago, Spacestor spotted a major shift in workspace culture and took the decision to open a Design Centre in California, USA. This has given us a unique position to observe and learn from the companies that are driving this culture change.
