Overview

2021 marks our 40th year of providing FUNctional Play Equipment and Classroom Furnishings! It all began in the attic of our founder's home all those years ago. Creating Soft Play products to help children grow physically and emotionally through the power of play was the dream. Boundless passion, hard work and attention to detail, quickly transformed Children's Factory into a mainstay in learning spaces around the world. Since launching our original line of Soft Play products, we have thoughtfully expanded over the years to include the finest in early-learning furniture, floor coverings, trikes and multi-seat transportation. Each new product has been intentionally designed to address specific milestones in the development of children. We've taken great care in selecting the ideal assortment of products to accommodate the ever-evolving needs of today's preschool classrooms while keeping the safety of precious little ones, our paramount concern. No matter how far the last 40 years have brought us, our goals remain largely unchanged: foster a compassionate, tight-knit work environment for employees, provide superior service to our valued customers, and always sweat the small stuff.
