Overview

We exist to provide effective services that protect, restore, and maintain buildings and structures throughout the United States.

Since 1915, Western has stood by dedication to quality craftsmanship. Today with 30 offices across the country, the company has evolved to become America's largest specialty contractor in masonry, concrete, waterproofing, and facades restoration.

We help property managers, building owners, general contractors, architects, engineers, and consultants across various markets. Why do they trust Western with their projects?

We've done this work for over a century, and along the way, we've learned a thing or two. But that's not the only reason. Western's qualifications include our robust safety program, strong financial commitment, and fierce quality control program.
