## **Overview**

### Overview

iT1 is an information technology solution provider with its headquarters operation in Tempe, AZ and field offices located around the world. As a trusted source with a proven track record of solving business challenges, our core value is to provide our customers with an unbiased analysis of how to take organizations to the next level of success through technology. iT1 has invested 17 years into developing the following core competencies: Networking, Security, Infrastructure solutions, Communication/Collaboration, and Cloud Services. Within these competencies iT1 provides Managed Services, NOC, Technology Assessments, Configuration Lab, Equipment Installations, Warehousing Services, Depot Services, and Disposition Solutions. For procurement of hardware and software, iT1 offers all the major technologies available in the marketplace today. For listing of technology products (or line card) iT1 can provide, at request. iT1's customers include: Commercial accounts that include small, medium, and large – and are geographically located across the globe. iT1 also serves the Public Sector with accounts that include: State, Local, Education, and Federal. In addition to the corporate address, iT1 has locations in: Arlington, VA, Chicago, IL, London, Netherlands, Australia, Canada, Mexico, and Hong Kong. iT1 serves all major verticals including: Financial, Retail, Distribution, Healthcare, Manufacturing, Construction, Non-Profit, Defense, Education, Entertainment, Energy, Hospitality, Food, Telecommunications, and Transportation.

### Technical Acumen

iT1 has a deep bench of certified engineers. Our core base of systems engineers are rooted in Network and Infrastructure projects and support implementations. The average tenure at iT1 for our engineers is 5 years. Some being with iT1 for 10 years. The engineers (at minimum) carry HPE, Dell, VMware, Netapp, Apple, Cisco, Microsoft, AWS, Juniper, Palo Alto, and Veeam certifications. Additional Security accreditations for the company, and engineers, include: VMware VRA platform (SaltStack), Cisco Advanced Security Specialization, Sophos MSP, and Artic Wolf (SOC). In addition to the ongoing educational requirements of our manufacturer partners (learning the latest and greatest technology solutions), the engineers attend webinars on a regular basis to stay up to date with the ever-changing technology landscape. We hold expert training sessions for our customers each month that focus on
