Overview

Medical Illumination International, Inc. is an employee-owned business founded 45 years ago with the sole focus of providing to the medical field the best-engineered, highest quality and most cost-effective surgery and examination lighting systems. For that reason, our expertise is recognized and respected globally by physicians, surgeons, veterinarians, dentists and others within the medical, veterinary and dental fields. Over the years, building on our strong reputation within the medical field, we added complementary products to our product mix, including camera and video integration, mounting systems and our patented VidaShield UV24 Air Purification System. Our products are all made in the United States and are installed in hospitals, clinics, veterinary offices, dental offices, pharmacies, schools, day cares, gyms, entertainment venues and offices the world over.
