Overview

Trane® is a world leader in air conditioning systems, services, and solutions. Trane helps customers succeed by providing innovative solutions that optimize indoor environments through a broad portfolio of energy-efficient heating, ventilating and air conditioning systems, building, contracting and energy services, parts support and advanced controls for homes and commercial buildings.

Trane serves engineers, contractors and building owners on all continents and in an array of markets including education, healthcare, government, industrial/manufacturing, data centers, lodging, retail and commercial real estate. With more than 900 U.S. patents to date, Trane creates comfortable and energy-efficient environments around the world.

Trane systems and services have a reputation for reliability, high quality and advanced innovation; and are available through a powerful distribution network. Trane employees and distributors are respected industry-wide for their skills and performance in designing, manufacturing, marketing and supporting commercial and residential systems.

Today, the brand that began as a family business over a century ago employs thousands of dedicated women and men around the world. We are writing new chapters in our history of growth through service and innovation every working day.

Make sure your buildings continue contributing to organizational goals year after year. Trane's broad service offering keeps HVAC systems and controls operating efficiently and reliably throughout the building's life cycle. All services are delivered by Trane's own OEM factory-trained technicians. For additional information, please visit www.trane.com or contact your local Commercial Sales Office
