Overview

Falkenberg Construction is a leading provider in the general contracting, job order contracting, IDIQ, at-risk construction management and design-build services for public and private sector clients across the State of Texas. Whether it's new vertical or horizontal construction, a renovation or general maintenance, our teams build the unique structures and interiors that play an important role in how people live, work, learn and play in our communities.

More than ever, our clients and trade partners look to us to find new, improved ways of delivering projects without sacrificing commitment to safety, quality, time or impact to communities or the environment. We strive to improve and innovate by:

- a collaborative approach to partnering and inclusion*
- a relentless need to pursue a better, more efficient way and not settling for the status quo*
- a constant drive for better results, always raising the bar*

A first impression: We Build to Last.

We want our lasting impression, our legacy, to be one that improves, enhances and connects our communities. One that our employees and their families will point to with pride. This goes far beyond physical structures. We strive to build long term relationships with our clients, developing trust from all stakeholders involved.
